Srilekha Jella

Software Engineer | Python | SQL | Data Engineering | Web Development | Playwright Automation

srilekhanetha186@gmail.com +91 7660044852 Hyderabad LinkedIn portfolio

PROFESSIONAL EXPERIENCE

Digitide Solutions Pvt. Ltd., *Software QA Engineer* 07/2025 – Present | Hyderabad, Telangana

Client Project: MSIG – Property & Casualty Insurance Domain

- Developed Python-based data reconciliation tools to automate source-to-target validation, identify discrepancies, and generate validation reports.
- Worked with large datasets and performed SQL-based data validation to verify record counts, data accuracy, financial balances, and reporting consistency.
- Developed Python and Playwright automation scripts to automate UI workflows and improve regression testing efficiency.
- Performed REST API, JSON, and SQL validation using Postman and SQL queries to verify integrations and data integrity.
- Executed functional, regression, integration, and UAT testing across application and reporting workflows.
- Investigated data and application defects using debugging, logs, SQL analysis, and root cause analysis; collaborated with developers to validate fixes.
- Built and maintained data validation, quality assurance, and reconciliation processes using ICE-DQ (AI), ensuring data integrity, consistency, and compliance across enterprise datasets.
- Used AI/LLM tools to assist with test scenario generation, SQL queries, validation logic, and automation workflows.
- Collaborated with cross-functional teams on defect tracking, sprint activities, test execution, and release validation using Azure DevOps.

Brain-O-Vision, *Junior Developer Intern* 08/2024 – 03/2025 | Hyderabad, India

Developed Forge IT LMS, a full-stack web-based Learning Management System using the MERN stack (MongoDB, Express.js, React.js, Node.js), featuring role-based dashboards for Admin, Teacher, and Student, secure course and chapter access, quiz evaluation, and an intuitive user interface designed for educational institutions and corporate training.

Wild Game Creative Studios, *Game Developer Intern* 09/2024 – 03/2025 | Hyderabad, India

Developed and delivered an end-to-end mobile game using Unity and C#, implementing gameplay mechanics, animations, scoring systems, interactive features, and user-friendly UI components, while performing mobile testing to validate functionality, usability, and performance across devices.

EDUCATION

Bhoj Reddy engineering college for women, *BTech. CSE* 09/2022 – 06/2025 | Hyderabad, India

Kamala Nehru Polytechnic for Women, *Diploma, CME* 06/2019 – 05/2022 | Hyderabad, India

SKILLS

Python | SQL | Java | JavaScript | TypeScript | AWS (EC2, S3, CloudWatch) | Playwright | Pytest | React.js | HTML5 | CSS3 | REST APIs | API Integration | Postman | QA Automation | Software Testing | Manual Testing | Functional Testing | Regression Testing | Integration Testing | End-to-End Testing | UI Automation | API Testing | Data Validation | Data Reconciliation | Data Processing | ETL/ELT Concepts | Data Transformation | Pandas | NumPy | JSON | SQL Server | MySQL | Test Planning | Test Case Design | Test Execution | Test Data Preparation | STLC | Azure DevOps | Defect Management | Debugging | Root Cause Analysis | Generative AI | AI Agents | Git | GitHub | CI/CD | Agile/Scrum | SDLC
